

Chrome browser window showing the Amazon SageMaker Data Wrangler interface. The URL is `d-shuwfz446iud.studio.us-east-1.sagemaker.aws/canvas/default/dataPreparation/dataFlows/e4b89356-3cef-45db-a0a7-ec0fbc34fb5`. The page title is "Data Wrangler: Data flow > New data flow 2024-9-23 2:26:01 PM.flow".

The interface shows a sidebar with navigation options: Home, Data Wrangler (selected), Datasets, My Models, ML Ops, Ready-to-use, Gen AI, Help, and Log out.

The main area displays "Step 1: Dataset (Test)" with tabs for Data flow, Data, and Analyses. The Data flow tab is active, showing a workflow diagram with the following steps:

- Initial Dataset
- Filter
- Drop column
- Drop missing
- Clean list size
- Standard deviation numeric ou...
- Data Quality And Insights Rep...
- Drop column
- Randomized split
- Dataset
- Dataset

The workflow ends with a "Run validation" button. The bottom of the interface shows a macOS dock with various application icons.
